Revisions to Fee Schedule since the last effective date:

March 18 2014 – Removed fee for owner and plumber transfer

May 23 2014 – Updated fee for systems greater than 2,000 gpd. As per ordinance change in Jan 2013, this fee should be \$181, not \$172 as written in previous versions of this fee schedule.

Aug 31 2016 – Reduced fee for installing primary and alternate distribution systems at the same time to \$120 to match the revision fee because similar work is performed.

Feb 8 2018 – Added holding tank review fees existing in Dane County ordinance for tanks larger than 5,000 gallons.
