ORDER OF PUBLIC HEALTH MADISON & DANE COUNTY

DATE OF ORDER: MAY 18, 2020

EMERGENCY ORDER #2

Public health orders have worked to flatten the curve of infections of COVID-19 throughout Dane County. In Dane County, the average number of daily cases dropped once the physical distancing measures within the Orders went into place. Additionally, the percent of people testing positive for COVID-19 in Dane County has dropped from 5.7 percent before the Orders went into place to 2.2 percent.

This is a critical time for Dane County to maintain the momentum of minimizing the spread of COVID-19 and halt further transmission. Public Health Madison & Dane County (PHMDC) is using data and science to determine what actions are necessary across Dane County to slow the spread of the disease. To achieve this goal, PHMDC assesses the percentage of individuals who test positive, the average number of daily cases, testing capacity, hospital capacity, contact tracing capacity, community spread, isolation and quarantine capacity, and research regarding virus transmission.

Based upon the foregoing, I, Janel Heinrich, Public Health Officer of Madison and Dane County, by the authority vested in me by the Laws of the State, including, but not limited to, Wis. Stats. Secs. 252.03(1), (2) and (4), order the following as necessary to prevent, suppress, and control the spread of COVID-19 :

- 1.** All individuals present within the County of Dane are encouraged to stay at home or at their place of residence, with exceptions outlined below. To the extent individuals are using shared or outdoor spaces other than their home or residence, they must at all times as reasonably as possible maintain physical distancing of at least six (6) feet from any other person consistent with Physical Distancing Requirements as defined below, except that they do not need to maintain physical distancing between individuals residing in a single living unit or household.
