Information for Completing ACUTE AND COMMUNICABLE DISEASE CASE REPORT

WISCONSIN STATUTE CHAPTER 252.05 AND ADMINISTRATIVE RULE CHAPTER HFS 145 REQUIRE REPORTING OF COMMUNICABLE DISEASES.
Persons required to report include any person licensed under ch. 441 and 448, Wis. Stats., or any other person having knowledge that a person has a communicable disease such as:

- A person in charge of infection control at a health care facility
- Laboratory directors
- School nurses, principals of schools and day care center directors

For further information see Wisconsin Administrative Rule HFS 145.

Diseases listed under categories I and II are to be reported to the local city or county health officer located in the local public health department of the patient's place of residence. Category III conditions must be reported directly to the state epidemiologist. Complete the "Demographic Data", "Morbidity Data" and "Reporting Source" sections for ALL diseases. For diseases preceded by an asterisk (*), provide immunization history. Follow-up epidemiologic information may be requested by local or state public health officials. Send copy "A" and copy "B" to the local health officer. Copy "C" may be retained with the patient's record.

REPORT THE FOLLOWING DISEASES TO YOUR LOCAL HEALTH AGENCY

CATEGORY I:

The following diseases are of urgent public health importance and shall be reported IMMEDIATELY by telephone or fax to the patient's local health officer upon identification of a case or suspected case. KEY:

[*]For diseases preceded by an (*), indicate immunization history in the "Immunization data" box in the "Morbidity data" section.
[1]Infectious diseases designated as notifiable at the national level.
[2]Wisconsin or CDC follow-up form is required. Local health departments have templates of these forms in the Epinet manual.
[3]Risk assessment by local health department is needed to determine if patient or member of patient's household is employed in food handling, day care or health care.
[4]Case investigation by local health department is needed.
[5]Immediate treatment is recommended, i.e., antibiotic or biologic for the patient or contact or both.
