

Badger Prairie Needs Network Operating Safely During COVID-19

Food is pre-boxed and bagged using new bags and boxes. Instructions are included in both English and Spanish telling clients to wipe down cans and boxes and either wash or cook all produce.

Drive-through service has been implemented for the food pantry. Clients stay in their vehicle and volunteers in face masks and disposable gloves get their information and fill their food pantry request. (A Spanish-language translator is available).

Clients are also asked to come alone to keep other family members safe at home. We also ask that they have their trunk cleaned out so that we have a space to place groceries - Volunteers load the groceries into the vehicle.
