

# A Community Health Assessment: Working together to understand the health of our community

1

A Community Health Assessment identifies community health needs, issues, and assets through:

COMMUNITY  
ENGAGEMENT

DATA  
COLLECTION

DATA  
ANALYSIS

3

Information from the CHA is then used to develop a Community Health Improvement Plan (CHIP).

A CHIP is a long-term, systematic plan developed by a public health agency and its community partners to build upon existing community health assets and address health issues identified in the CHA.

2

A steering committee made up of community partners co-leads the process:

## OUR FRAMEWORK
