

Community Health Improvement Plan Priorities

HOW THE PRIORITIES WERE SELECTED

Our steering committee, made of community partners, attended a session led by an external facilitator to select priorities.

- 1** The group reviewed Community Health Assessment data, including data from focus groups, interviews, surveys, and photovoice projects.
- 2** The committee were able to ask clarifying questions relating to the data review and themes that emerged.
- 3** The committee voted on the top themes impacting the health and wellbeing of people in Dane County.
- 4** The committee identified CHIP priority areas and selected the building blocks (see right).

THE PRIORITIES

The steering committee selected these priorities (see box to left) which all affect our health. The team and community partners will develop goals, objectives, and indicators for each priority.

**Access to
Mental
Health Care**

Housing

Employment

**Racial
Diversity &
Inclusion**

**Education
Equity**

BUILDING BLOCKS

The data highlighted two building blocks, which are areas with strong local partnerships and initiatives to build on that require ongoing attention and investment.

**Food
Security**

**Green
Space**
