

## 2021 DANE COUNTY YOUTH ASSESSMENT HMONG AMERICAN YOUTH EXPERIENCES UNVEILED

Brittany Grogan, MPH, Community Health & Informatics Epidemiologist Palee Yang, BSN, RN, Community-Based Public Health Nurse Oct 10, 2023

## Recording Disclaimer

This meeting/event is being recorded. It is a public record subject to disclosure. By continuing to be in the meeting, you are consenting to being recorded and consenting to this record being released to public record requestors. You have the option to turn off your camera and participate with audio only.

## Introductions

### Please share in the chat:

- Your Name, Pronouns (optional)
- Role
- Organization (as applicable)
- What you hope to take away from this presentation

## Tech ETIQUETTE

Keep yourself muted unless you are speaking Change your name & include your pronouns (optional)

Use chat if you have questions

## Objectives

- Understand the importance of disaggregated race and ethnicity data in advancing health and racial equity
- Describe Hmong American population data in Wisconsin and Dane County
- ➤ Learn about the Dane County Youth Assessment
- Gain a better understanding about Hmong American youths' opinions, concerns, behaviors, attitudes, and experiences on a range of topics

Project Background

### Six Asian origin groups in the U.S. had populations of at least 1 million people in 2019 ...

In thousands

		Population			% growth,
	Origin group	2019	2010	2000	2000-2019
	Chinese, with Taiwanese	5,399	4,010	2,865	88%
	Taiwanese	226	230	145	56%
	Chinese, except Taiwanese	5,172	3,780	2,720	90%
	Indian	4,606	3,183	1,900	142%
	Filipino	4,211	3,417	2,365	78%
	Vietnamese	2,183	1,737	1,224	78%
	Korean	1,908	1,707	1,228	55%
	Japanese	1,498	1,316	1,160	29%
	Pakistani	554	409	204	171%
	Thai	343	238	150	128%
	Cambodian	339	277	206	64%
	Hmong	327	260	186	75%
	Laotian	254	232	198	28%
	Bangladeshi	208	147	57	263%
	Nepalese	198	59	9	2,005%
	Burmese	189	100	17	1,031%
	Indonesian	129	95	63	105%
	Sri Lankan	56	45	25	127%
	Malaysian	38	26	19	106%
	Mongolian	27	18	6	358%
	Bhutanese	24	19	<1	11,288%
	Okinawan	14	11	11	33%

#### ... accounting for 85% of the nation's Asian population

% of the U.S. Asian population that is \_\_\_, 2019

Note: "All others" includes the category "Other Asian, not specified." Figures do not add to 100% because individuals identifying with more than one Asian group are included in all groups.

Source: For 2019, Pew Research Center analysis of 2019 American Community Survey 1-year estimates (Census data). For 2000 and 2010, census counts from U.S. Census Bureau, "The Asian Population: 2010" Census Brief, Table 6.

#### PEW RESEARCH CENTER

<sup>\*</sup> Includes those identifying as Taiwanese; for more information, see "How many Taiwanese live in the U.S.? It's not an easy question to answer."

#### Largest Asian origin groups by state, 2019

Note: Figures for all origin groups include mixed-race and mixed-group populations, regardless of Hispanic origin. "Chinese" includes those identifying as Taiwanese.

Source: Pew Research Center analysis of 2017-2019 American Community Survey (IPUMS).

#### PEW RESEARCH CENTER

#### 54% of U.S. Asians have a bachelor's degree or more education

% of those ages 25 and older with a bachelor's degree or more, by origin group, 2019

Note: Data not available for all Asian origin groups. "Chinese" includes those identifying as Taiwanese. See methodology for more. Source: Pew Research Center analysis of 2017-2019 American Community Survey (IPUMS).

#### PEW RESEARCH CENTER

Educational attainment varies significantly across Asian ethnic groups.

23% of Hmong Americans ages 25 years and older have at least a bachelor's degree compared to 54% of All Asians

# Hmong American Population Data in Dane County

The Hmong population in Dane County is younger than the overall Dane County population. 34% of Hmong people in Dane County are children under age 18, compared to 20% for Dane County overall. 15% of Dane County is age 65+, compared to just 3% of Hmong people in Dane County.

## Pane County Youth Assessment 2021

#### OVERVIEW REPORT

Dane County Youth Commission Issued on July 21, 2021

## Overview of DCYA

#### **Dane County Youth Commission**

- Funded by:
  - Dane County Human Services
  - United Way of Dane County
  - Public Health Madison & Dane County
  - City of Madison
  - 20 School districts
- County-wide survey of students grade 7-12<sup>th</sup>
- Approximately, 26,000 students completed the 2021 survey (weighted)

## PURPOSE OF DCYA

- Leads to a better understanding about youth needs and interests
- Informs community programs and government policy making
- Supports grant writing for school districts and other community organizations
- Provides important data for a variety of researchers in Dane County and across the U.S.

## **TOPICS COVERED**

- ➤ Alcohol, drugs and tobacco
- ➤ Nutrition, exercise and health
- ➤ Home life
- ➤ Community involvement
- ➤ Sexual behavior
- ➤ Working and volunteering
- > Extra-curricular activities
- ➤ Life at school
- >Future plans
- ➤ Emotional/mental health
- ➤ COVID impact

## Race Demographic Report

Response Options	N	% of all 9 <sup>th</sup> -12 <sup>th</sup>	
		Grade Students

#### 買

## Dane County Youth Assessment Data

#### 3 out of every 4 Hmong student respondents attended high school in Sun Prairie or in Madison.

## Discrimination

53% of Hmong students said they have been treated unfairly or discriminated against, higher than 41% of all students.

Percent of each group that said they have been treated unfairly or been discriminated against

## Discrimination

41% of Hmong students said they have been treated unfairly or discriminated against because of their race, which was higher than 13.5% of all students.

9% of Hmong students said they have been treated unfairly or discriminated against because of their language, which was higher than 2% of all students.

Percent of each group that said they have been treated unfairly or been discriminated against because of their race

Percent of each group that said they have been treated unfairly or been discriminated against because of their language

## **Employment**

28% of Hmong students said they have a job, lower than 45% of all students.

Percent of each group that said they have a job

- 46% of Hmong students said they don't have a job and are not looking for one, higher than 34% of all youth.
- When asked if they **need help finding a job or a better job**, 19% of Hmong students responded "don't know, not sure," higher than 11% of all youth.

## **Community Engagement**

When asked if they have been involved in any social activism, like marches or protests, **59% of Hmong students responded "no, and probably won't",** higher than 43% of non-Hmong Asian students and 46% of all students.

Percent of each group that said they have not been involved in any social activism, and probably won't in the future

## **Community Engagement**

The majority of Hmong students agreed with the statements: "People working together can make changes," "It is my responsibility to be actively involved," and "I think my opinion makes a difference." However, they were less likely than non-Hmong Asian students to strongly agree with these statements.

Percent of each group that said they strongly agree

## **Community Engagement**

17% of Hmong students have done any volunteer work or community service in the last 12 months, lower than 57% of non-Hmong Asians and 48% of all youth.

Percent of each group that said they have done volunteer work or community service in the last 12 months

## Extracurriculars

45% of Hmong students said they have no involvement in school/club sports, which was higher than 26.5% of non-Hmong Asian students and 30% of all students.

70% of Hmong students said they have no involvement in music, art, dance, or drama, which was higher than 48% of non-Hmong Asian students and 60% of all students.

## Extracurriculars

81% of Hmong students said they have no involvement in a leadership group, which was higher than 65% of non-Hmong Asian students.

64% of Hmong students said they have no involvement in other afterschool programs, clubs, or activities, which was higher than 44% of non-Hmong Asian students.

Percent of each group that said they never participate in other afterschool programs, clubs, or activities

## Exercise, Weight, & Nutrition

48% of Hmong students said they **don't** have time to exercise, which was higher than 35% of all students.

53% of Hmong students said they **are trying to lose weight**, which was higher than 37% of all students.

Percent of each group that said they are trying to lose weight

## Exercise, Weight, & Nutrition

28.5% of Hmong students said they didn't eat breakfast any day of the past 7 days, which was higher than 14% of non-Hmong Asian students and 13% of all students.

19.5% of Hmong students said they ate breakfast every day of the past 7 days, which was lower than 41% of non-Hmong Asian students and 35% of all students.

Percent of each group that said they ate breakfast 0 days out of the past 7 days

Percent of each group that said they ate breakfast every day of the past 7 days

## Sleep & Phones

53% of Hmong students said they are usually awake every school night past 11pm looking at their phone or computer, which was higher than 40% of all students.

60% of Hmong students said their **phone**, **tablet**, **or computer interrupts their sleep some**, **most**, **or every night**, which was higher than 41.5% of non-Hmong Asian students and 37% of all students.

Percent of each group that said their phone, tablet, or computer interrupts their sleep some, most, or every night

## Parent Monitoring & Interest

22% of Hmong students said they **usually never eat evening meals with their family**, which was higher than 10% of all students.

34% of Hmong students said their parents always or often talk with them about things that bother them, which was lower than 51% of all students.

Percent of each group that said their parents always or often talk with them about things that bother them

## Parent Monitoring & Interest

29% of Hmong students said they have had a good talk with their parents about birth control, which was lower than 45% of all students.

23% of Hmong students said they have had a good talk with their parents about sexually transmitted infections, which was lower than 36% of all students.

Percent of each group that said they have had a good talk with their parents about birth control

Percent of each group that said they have had a good talk with their parents about sexually transmitted infections

### **Emotional & Mental Health**

33% of Hmong students said they have a long-term emotional health problem, which was lower than 44% of all youth.

## **Emotional & Mental Health**

22% of Hmong students said they **have anxiety**, which was lower than 32% of all students.

Percent of each group that said they have anxiety

12% of Hmong students said they **have depression**, which was lower than 21.5% of all students.

Percent of each group that said they have depression

However, when asked about depression symptoms ("During the past 12 months, did you ever feel so sad or hopeless almost every day for at least two weeks in a row that you stopped doing some usual activities?"), **40% said yes,** which was not different from the 33% of all youth that said yes. Also, more than 3 out of every 4 Hmong youth said they experience anxiety, which is similar to all youth. Together, this indicates that some **Hmong youth are experiencing depression and anxiety symptoms but possibly not being diagnosed.** 

## Sex & Dating

85% of Hmong students said they have never voluntarily had sexual contact or intercourse with another person, which was higher than 72% of all students.

59% of Hmong students said they did not date or go out with anyone during the past 12 months, which was lower than 76% of non-Hmong Asian students.

Percent of each group that said they did not date or go out with anyone during the past 12 months

## Drug Use

93% of Hmong students said they **did not drink any alcohol in the past 30 days**, which was higher than 85% of all students.

94% of Hmong students said they did not use marijuana or cannabis in any form in the past 12 months, which was higher than 86% of all students.

past 30 days

Percent of each group that said they did not use marijuana or cannabis in any form in the past 12 months

## Drug Use

52% of Hmong students said there are **no prescription drugs in their home**, which was higher than 29% of non-Hmong Asian students and 25% of all students.

32% of Hmong students said that prescription drugs in their home are kept in a place they can access (like the bathroom cabinet or kitchen counter), which was lower than 56% of non-Hmong Asian students and 56.5% of all students.

Percent of each group that said prescription drugs in their home are kept in a place they can access

## **Drug Use**

88% of Hmong students had 0 positives on the CRAFFT addiction scale (indicating no addiction issues), which was higher than 80% of all youth.

Percent of each group with no addiction issues (0 positives on the CRAFFT addiction scale)

16.5% of Hmong students said they were afraid their family wouldn't have enough food during COVID, which was higher than 6% of non-Hmong Asian students and 7% of all students.

11.5% of Hmong students said they were afraid their family might lose their housing during COVID, which was higher than 4% of non-Hmong Asian students and 5% of all students.

Percent of each group that said they were afraid their family wouldn't have enough food during COVID

Percent of each group that said they were afraid their family might lose their housing during COVID

4% of Hmong students said they currently receive special education support or have an IEP, lower than 9% of all youth. 14.5% said they don't know, higher than 7% of all youth.

30% of Hmong students disagreed or strongly disagreed with the statement, "I feel safe at my school," which was higher than 20% of all students.

34% of Hmong students disagreed or strongly disagreed with the statement, "I feel like I belong at this school," which was higher than 23% of all students.

Percent of each group that disagreed or strongly disagreed with the statement "I feel safe at my school"

Percent of each group that disagreed or strongly disagreed with the statement "I feel like I belong at this school"

79% of Hmong students agreed or strongly agreed with the statement, "I see my education helping me in the future," which was lower than 91% of non-Hmong Asian students.

51% of Hmong students agreed or strongly agreed with the statement, "I struggle with homework because the homework is too hard, can't figure it out," which was higher than 36% of non-Hmong Asian students and 38% of all students.

Percent of each group that agreed or strongly agreed with the statement "I struggle with homework because the homework is too hard, can't figure it out"

50% of Hmong students **strongly agreed** with the statement, "It's important to me that I do well in school," which was lower than 72% of non-Hmong Asian students.

21% of Hmong students strongly agreed with the statement, "I struggle with homework because I have too many other responsibilities," which was higher than 8.5% of non-Hmong Asian students.

Percent of each group that strongly agreed with the statement "I struggle with homework because I have too many other responsibilities"

#### **Bullying & Victimization**

31% of Hmong students said they had been bullied, threatened, or harassed by others about their race or ethnic background in the past 12 months, which was higher than 10% of all youth.

Percent of each group that said they have rarely, sometimes, or often been bullied, threatened, or harassed by others about their race or ethnic background in the past 12 months

#### **Adult Connections**

57% of Hmong students agreed or strongly agreed with the statement, "I can ask my neighbors for help," which was lower than 69% of all students.

41% of Hmong students agreed or strongly agreed with the statement, "If I had to move, I would miss my neighborhood," which was lower than 60% of all students.

Percent of each group that agreed or strongly agreed with the statement "I can ask my neighbors for help"

Percent of each group that agreed or strongly agreed with the statement "If I had to move, I would miss my neighborhood"

#### **Adult Connections**

83% of Hmong students agreed or strongly agreed with the statement, "I feel safe in my neighborhood," which was lower than 94% of non-Hmong Asian students and 92% of all students.

55% of Hmong students agreed or strongly agreed with the statement, "I help my neighbors," which was lower than 71% of all students.

Percent of each group that agreed or strongly agreed with the statement "I help my neighbors"

#### **Adult Connections**

14% of Hmong students **strongly agreed** with the statement, "My neighbors are friendly to me," which was lower than 28% of non-Hmong Asian students and 29% of all students.

6.5% of Hmong students strongly agreed with the statement, "I can count on the police if I need them," which was lower than 19% of non-Hmong Asian students and 23% of all students.

Percent of each group that strongly agreed with the statement "I can count on the police if I need them"
