

Creating the Murals

A collaboration between Public Health, Developing Artists, Murals & Alliances (DAMA), and YOU!

These seven murals are a creative way to start conversations about the relationships between our CHIP priorities and health.

To create them, we used data from our Community Health Assessment and information gathered from community painting sessions at:

- Parks Alive
- Sun Prairie's Sunshine Place Community Party & Resource Fair
- Viva Mexico!
- Black Women's Wellness Event
- Black Business Hub
- Juvenile Shelter
- Connecting Children to Nature
- MMSD Student Senate
- Juvenile Reception Center
- Madison & Dane County Food Council, school meal providers, senior nutrition programs, & other local nonprofits distributing food to communities

Thanks to everyone who participated!
