

HOW TO:

REGISTER ON YOUR PHONE WHILE YOU WAIT!

Go to: register.covidconnect.wi.gov

Scan me!

To pre-register, all you need is a mobile device that can receive email. If you can't register on your phone, you will still be tested. Staff will register you, but it will take much longer.

How do I pre-register?

Scan the QR code at the top of this page, or go to this URL: register.covidconnect.wi.gov

Answer the registration questions.

- **Register with your Wisconsin address.** If you're a student, use your local campus address. Addresses outside Wisconsin may have delays.
- Each person must register individually.

Receive an email confirmation with a QR code. You can use the same email address to register other family members—you will be emailed one QR code for each person registered. **Each QR code can only be used once.**

Have your QR code ready. You will need to show it to staff **at least twice** (at check-in and testing station).

How do I get results?

Until you have your test results, **limit contact with other people.** Test results take 3-7 business days. Results cannot be expedited.

Negative results: you will be emailed a secure link to view and print results.

Positive results: you will be called by Public Health staff.

If it has been at least 5 days since you got tested and you haven't received your results, call the Wisconsin COVID-19 Results Line at: **(866) 419-6988.**

What if I have symptoms?

1. **Isolate yourself** until you receive negative results. Do not have contact with others. If you test positive Public Health staff will guide you.
2. **Do not go to work;** notify your employer you have symptoms and are waiting for test results.
3. **Do not go to a hospital unless it is an emergency.** Most people who have COVID-19 are able to get better on their own at home. See your "COVID-19 Testing: next steps and results" handout or visit our website for more guidance.
