

TRANSPORTATION

Guidance for Reducing Risk of COVID-19

Limit contact

- Passengers should maintain at least six (6) feet from others (unless from same household) whenever possible.
- Mark busses to assist passengers in maintaining six feet separation whenever possible.
- Examples include blocking off certain seats, floor decals, or signage.

Clean and disinfect

- Disinfect high touch points (handrails, doors, front/back of seats, etc...) frequently.
- Clean the operator cab whenever switching operators.
- Get and carry cleaning and disinfectant spray or disposable wipes and disposable trash bags with you in your vehicle.
- Follow the directions on the cleaning product's label.
- If surfaces are visibly dirty, clean with detergent or soap and water prior to disinfection.
- Appropriate disinfectants for hard non-porous surfaces include:
 - EPA's Registered Antimicrobial Products for Use Against Novel Coronavirus SARS-CoV-2.
 - Diluted household bleach solutions prepared and used according to the manufacturers label for disinfection if appropriate for the surface.
 - Alcohol solutions with at least 70% alcohol.

Face coverings

- Ensure operators wear a face covering when operating the vehicle.
- Ensure passengers wear a face covering when riding in the vehicle.

Employee illness monitoring

- Sick employees and/or passengers should stay home.
- Monitor workforce for COVID-like symptoms.

Signage

- Prominently display signage that states the importance of physical distancing, proper hand washing, and face coverings.

Personal hygiene

- Proper hand hygiene is an important infection control measure. Wash your hands regularly with soap and water for at least 20 seconds. If soap and water are not readily available, use an alcohol-based hand sanitizer containing at least 60% alcohol.
- Key times to clean hands in general include:
 - Before, during, and after preparing food.

- Before eating food.
- After using the toilet.
- After blowing your nose, coughing, or sneezing.
- Additional times to clean hands on the job include:
 - Before and after work shifts.
 - Before and after work breaks.
 - After touching frequently touched surfaces, such as handrails.
 - After putting on, touching, or removing cloth face coverings.
