

# Drinking Water Testing

All testing is done by a certified drinking water laboratory.

## WATER TESTING PACKAGES

### Homeowners Package \$300

Metals Package, Coliform/E. coli, Plate Count, Atrazine, and Non-Metals: Fluoride, Chloride, Nitrate + Nitrite, Sulfate

*Requires Green, Yellow, Blue, and Brown Bottles*

### Annual Private Well Package + Lead \$100

Nitrate + Nitrite, Coliform/E. Coli, Plate Count & Lead

*Requires Green Bottle*

### Annual Private Well Package \$75

Nitrate + Nitrite, Coliform/E. Coli, & Plate Count

*Requires Green Bottle*

### VA Loan Package \$110

Coliform, E. coli, Lead, Nitrate, Nitrate+Nitrite, Nitrite

*Requires Green and Yellow Bottles*

### Bacteria Package \$55

Coliform/E. Coli, Plate Count

*Requires Green Bottle (private well) or Red Bottle (municipal water)*

### Metals Package \$100

Aluminum, Arsenic, Cadmium, Calcium, Chromium, Cobalt, Copper, Iron, Lead, Magnesium, Manganese, Nickel, Strontium, Vanadium, Zinc, and Hardness

*Requires Yellow Bottle*

### Hardness Package \$40

Calcium, Magnesium, Hardness Calculation

*Requires Yellow Bottle*

## ALL WATER TESTING OPTIONS

BOTTLE COLOR

### Bacteria

*\$30 each*

*\$55 both*

- Coliform/E. Coli
- Plate Count (HPC)

### Biofilm Forming

*\$40 each*

- Pseudomonas Bacteria
- Iron Bacteria
- Sulfur Bacteria

### Non-Metals

*First test, price as noted.*

*\$15 for each additional test*

- Chloride (\$25)
- Fluoride (\$25)
- Sulfate (\$30)
- Nitrate (\$30)
- Nitrite (\$30)
- Nitrate + Nitrite (\$30)
- Total Dissolved Solids (\$25)
- Conductivity (\$10)
- pH (\$10)
- Alkalinity (includes pH and Conductivity, \$25)

*\*If testing for both Nitrate and Nitrite, no additional cost for Nitrate + Nitrite*

### Metals

*First test \$30*

*\$20 for each additional test*

- Aluminum
- Antimony
- Arsenic
- Barium
- Beryllium
- Cadmium
- Calcium
- Chromium-Total
- Cobalt
- Copper
- Iron
- Lead
- Magnesium
- Manganese
- Mercury
- Molybdenum
- Nickel
- Potassium
- Selenium
- Silver
- Sodium
- Strontium
- Thallium
- Zinc

### Herbicide

*\$35 each*

- Atrazine

Bacteria Only - Red

Non-Metals Only - Blue

Both Bacteria & Non-Metals - Green

Yellow

Brown

## Water Testing Recommendations

### Private Wells

You should test each year for bacteria and nitrate/nitrite. Test sooner if there has been flooding in the area or if you notice changes in taste, odor, or appearance of the water.

### Municipal Water

The water utility tests water regularly and makes sure that you have safe drinking water.

You can test for water quality problems that may come from your plumbing, like lead, copper, manganese or bacterial contamination. We can help figure out if you have lead pipes.

Call us at (608) 242-6515.

**Payment:** Exact cash or check made out to City Treasurer.

**Results:** Most results available in 15 business days, Atrazine up to 28 days.
